 Hand-carved Copper River is made from 3/4-in. thick glass and features a pencil-polished sink edge. The sink and pedestal leg are backed with copper metal leaf.

/ 8 / APF Munn
www.apfmunn.com
 Made in the U.S., Delphic Sunburst is cast in resin from a hand-carved original. Frames for square or rectangular mirrors are hand-finished in 22-karat gold leaf.

/ 9 / Laufen
www.laufen.com
 Italian design duo Ludovica and Roberto Palomba based their eponymous collection of ceramic washbasins, bathtubs, toilets, bidets and furniture on the idea of nature creating the shapes through the force of water over thousands of years.

/ 10 / Apaiser
www.apaiser.com
 Using a patented formula produced from a base of 80-85 percent reclaimed crushed marble, calcium carbonate, resin and polymer, this stone bathware harnesses the organic nature of stone. The material is impervious to staining, features thermal properties and is scratch resistant.

/ 11 / Dornbracht
www.dornbracht.com
 Sieger Design's Selv uses engineered radii to create the conical lines of the collection's bidet, lavatory, shower and tub fittings. Fixtures are available in a polished chrome or platinum matte finish.
